Payments Bank

X

ACCESS HAS GROWN FASTER THAN ASSURANCE

Digital banking is now an **everyday behaviour** across India.

Urban users move through UPI, online shopping, subscriptions and digital services without thinking twice.

Rural users are also active across mobile payments, **video and voice-led platforms**; rural India now has more than 488 million internet users, and seven out of ten new internet users come from rural India.

THE CHALLENGE TODAY IS **LESS ABOUT CONVINCING** PEOPLE TO USE TECHNOLOGY.

IT IS ABOUT **HELPING THEM FEEL SURE AND SAFE** WHILE USING IT.

The Tension

Urban consumers know how to make a payment.

They may still expose the same account holding their salary and savings across every app, merchant, QR code and website.

Rural consumers are largely willing to bank digitally.

Their confidence depends on whether **the process feels clear, the transaction works, the information comes from someone familiar and there is support when something goes wrong. Trust, ease of use, local language, practical demonstration and peer influence** play a significant role in continued adoption.

“INDIA HAS ACCESS TO DIGITAL BANKING.”

“IT STILL NEEDS GREATER CONFIDENCE AROUND ITS MONEY.”

THE NORM

Most finance brands communicate through one of four familiar modes:

- **PRODUCT ANNOUNCEMENTS**
- **FINANCIAL-LITERACY POSTS**
- **FRAUD WARNINGS**
- **FESTIVAL AND TOPICAL CREATIVES**

"INDIA HAS **ACCESS** TO **DIGITAL BANKING.**"

"IT STILL NEEDS **GREATER CONFIDENCE AROUND ITS MONEY.**"

COMP AUDIT REVEALS A PATTERN:

BRAND	WHAT IT CURRENTLY OWNS	SOCIAL LIMITATION
India Post Payments Bank	Doorstep banking, government association and physical accessibility	Scheme-led, instructional and largely transactional
SBI	Scale, heritage and institutional trust	Broad mass communication without a distinct rural or DBT voice
Bank of Baroda	Full-service credibility and government-scheme awareness	Institutional storytelling with limited cultural or human relevance
Fino Payments Bank	Merchant network and local payment enablement	Rural communication remains merchant-focused; limited ownership of beneficiaries and subsidies
Airtel Payments Bank	Safe Second Account and digital-payment safety	Urban-heavy communication, limited rural narrative, cross-platform repetition and a brand-first content approach

THE CATEGORY WHITE SPACE

Airtel Payments Bank can become the brand that:

- Understands how money behaves in daily life.
- Makes complicated information easier to follow.
- Helps people recognise suspicious behaviour.
- Helps people access what is rightfully theirs.
- Creates content people would willingly watch, save and share.

WHAT THAT MEANS:

Become a brand that brings financial confidence with a personality.

THE UNIFYING BRAND ROLE

The urban and rural propositions solve different problems:

URBAN

Protect the money held in the primary account, by separating everyday digital transactions.

RURAL

Provide a dependable, DBT-ready account through which government benefits can reach the beneficiary.

THE SHARED **EMOTIONAL TERRITORY IS OWNERSHIP.**

FOR INDIANS, EVERY RUPEE MATTERS. THERE IS PRIDE IN DECIDING HOW THEIR MONEY IS USED, AND A STRONG INSTINCT TO PROTECT WHAT THEY HAVE EARNED.

POSITIONING STATEMENT

JO AAPKA HAI, AAPKA RAHE.

FOR **URBAN** AUDIENCES, THIS MEANS **PROTECTING SAVINGS FROM UNNECESSARY DIGITAL EXPOSURE**.

FOR **RURAL** AUDIENCES, THIS MEANS **ENSURING THAT SUBSIDIES AND GOVERNMENT BENEFITS REACH THE RIGHTFUL PERSON** CLEARLY AND DIRECTLY.

It also creates room for the brand to discuss scams, confusing information, financial habits, account security, subsidies, DBT and everyday banking under one coherent belief.

ACCOUNT PERSONALITY

A WARM, MONEY-SMART ALLY

Airtel Payments Bank should feel like the person who helps make money less stressful and intimidating.

The account understands money as people experience it, and not as banks write about it.

TONE PRINCIPLES

- FRIENDLY, NEVER FORMAL
- OBSERVANT, NEVER JUDGMENTAL
- PLAYFUL, WITH A CLEAR PURPOSE
- CALM DURING SERIOUS MOMENTS
- LOCAL, WITHOUT EXAGGERATED CARICATURE

HOW DO WE TALK TO THESE VERY DIFFERENT AUDIENCES?

PRESENTING THE TWINS.

One instinct. Two expressions.

The Twins should operate as the internal content system for the page.

They should never imply that urban India is advanced while rural India is catching up. Both audiences are **digital, ambitious and financially active**. Their circumstances, trust systems and content behaviours are different.

VISUAL ROLE

The twins become recurring markers across thumbnails and explainers, helping audiences instantly identify urban and rural content.

They share one visual universe, with distinct styling and cues that give each twin - and each content stream - its own identity.

HOW DO WE TALK TO THESE VERY DIFFERENT AUDIENCES?

The Urban Twin: The Money-Savvy Digital Friend (Moneysh)

Street-smart, observant, trend-aware and lightly cheeky.

Its humour is **dry, sharp and relatable.**

It should make people think:

I do this all the time. Maybe my money needs better boundaries.

Description: 20 something first jobber who works in a corporation and earns a fair wage.

Movie fan, foodie at heart and a religious sports fan.

HOW DO WE TALK TO THESE VERY DIFFERENT AUDIENCES?

The Rural Twin: The Familiar Local Guide (Rupeesh)

Warm, clear, regionally fluent and quietly witty.

It should make people feel:

Yeh baat samajh aayi.. Isse kisi aur ko bhi samjha sakte hain.

Description: 20 something, budding entrepreneur who likes making the most of the schemes available to him to make his life better (and that of his community). Due to his knowhow and financial literacy, he is well sought out in his community for the help he gives.

PLATFORM ROLES (URBAN)

Instagram

The primary home for BAU, cultural commentary, creator collaborations, UGC, scam formats and money behaviour.

The new series feature also enables us to tap into the growing world of microdramas.

Content should feel native to the feed and respond quickly to trends.

YouTube

Home for creator IPs, large and short format edutainment, searchable explainers, films and scam-led spikes.

Shorts can extend Instagram formats. Longer episodes can build IP equity.

LinkedIn

The credibility and impact layer for real customer stories, photo-led narratives, beneficiary journeys, leadership perspectives and informed commentary on global finance and fintech developments.

PLATFORM ROLES (RURAL)

Youtube

The primary home for regional explainers, expert- and creator-led IPs, FAQ libraries, beneficiary stories and searchable scheme content

Facebook

The community layer for regional videos, local updates, customer stories, scheme information and conversations around everyday banking need

ShareChat and Moj

The vernacular discovery and sharing layer for regional entertainment, creator-led formats and scheme-based IPs such as Subsidy Ki Seedhi, Seekho Sikhao and Paisa Panchayat.

Content should be built for both in-app circulation and easy forwarding to WhatsApp, helping it travel across families and communities. A Bharat-first approach using Indic languages, regional creators and locally written content can build trust and understanding at scale.

PLATFORM ROLES (RURAL)

Instagram

The emerging youth layer, used selectively to reach younger regional audiences, rural entrepreneurs and family digital helpers through contemporary creators and aspirational stories.

WhatsApp

Voice notes, low-data videos, subsidy updates, safety reminders and content intended to travel from one household to another.

THE STRATEGY SYSTEM

IN ONE VIEW

STRATEGIC TRUTH

Access has grown faster than assurance.

BRAND OPPORTUNITY

Build financial confidence with a distinctive social personality.

UNIFIED POSITIONING

Jo aapka hai, aapka rahe.

SOCIAL ROLE

Help people protect, understand and access what belongs to them.

IDEAS

STAY STREET SMART

CATEGORY | OUTSMART SCAMMERS

BUILDING SMARTER FINANCIAL HABITS.

Instead of **fear-mongering,** this bucket empowers people to **outsmart scams, recognise red flags, and bank safely.**

Through **humour, interactive formats,** and real-world examples, APB positions itself as the companion that helps people stay one step ahead.

STAY STREET SMART

SCAMBUSTERS

Urban Audience | IG

Insight

When public figures fall victim to **digital arrest scams**, it quickly becomes the talk of the town.

Concept

When even creators and public figures fall victim to digital arrest scams, it becomes a powerful reminder that anyone can be targeted.

Influencers can react to these incidents, **express their rage**, and take **pride in exposing scammers** while using the opportunity to educate audiences about how these scams work, the precautions to take, and how a **Safe Second Account** can help protect their money.

Stay Street Smart

SCAMBUSTERS | Urban Audience | IG

Execution

Creators share scam experiences they've personally faced or witnessed, before taking on a mission to expose scammers. Using a simple **P2C format, graphics, and real examples**, they decode scams like **Aadhaar fraud, OTP scams, digital arrest, fake police calls**, and more. It helps people spot **red flags, stay alert**, and naturally introduces the Safe Second Account as a practical layer of protection.

STAY STREET SMART

SCAMESH BHAI

URBAN & RURAL
AUDIENCE YT, IG, MOJ

Insight

People enjoy it when **criminals become victims** of their own tricks. It creates a sense of justice while making the story more entertaining and shareable.

Concept

Scammers don't have a 100% strike rate. They make mistakes too, and those mistakes are often the biggest clues to identify them. By highlighting these failed scam attempts in a fun and entertaining way, we make people more aware and confident in spotting fraud.

The series shows just how close anyone can come to being scammed, but with the right awareness, they can stay one step ahead. Every failed scam becomes a lesson that leaves people laughing, while making them more informed and cautious.

Stay Street Smart

SCAMESH BHAI | Urban & Rural Audience | YT, IG, Moj

Execution

Set in the same **AI universe as Rupeesh and Moneysh, Scamesh Bhai** is our very own **AI-generated character,** the world's most unsuccessful scammer. Every episode follows his desperate attempts to scam unsuspecting urban and rural Indians, only to be outsmarted by aware, street-smart users. Along the way, the series naturally showcases real use cases of Airtel Payments Bank and the Safe Second Account, demonstrating how simple precautions can stop scams in their tracks. Every failed attempt sends Scamesh Bhai back to square one, making each episode both entertaining and educational.

SCENARIOS:

Urban

- Scam scenarios inspired by everyday digital habits - UPI, online shopping, courier deliveries, KYC updates.
- Fast-paced, meme-worthy storytelling with relatable urban situations and humour.
- Features digitally savvy users who spot red flags and outsmart scammers.
- Ends with simple, actionable safety tips and the role of the Safe Second Account.

Rural

- Scam scenarios based on everyday realities—government schemes, bank verification, loan offers, lottery scams, and fake officials.
- Simple, relatable storytelling rooted in local behaviours and familiar settings.
- Features street-smart users who rely on awareness, common sense, and verification to avoid scams.
- Ends with easy-to-follow precautions and the Safe Second Account as a practical layer of protection.

Stay Street Smart

SCAMMY AWARDS | Urban | IG

Insight

People are more likely to recognise and avoid fraud when they've seen real scam attempts before.

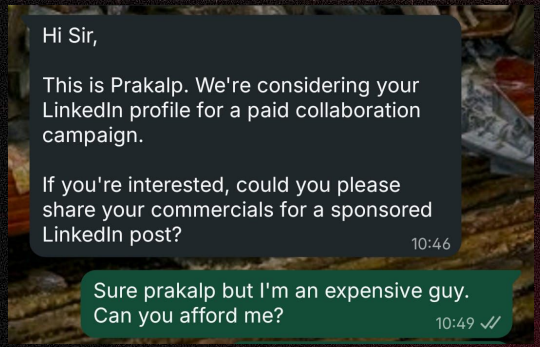
Concept

Instead of simply telling people how financial scams work, we invite them to share the actual scam messages, calls, emails, and WhatsApp chats they've received. The most unique, bizarre, or convincing scam attempt entries are rewarded through the Scammy Awards contest.

By turning real scam attempts into a recurring UGC content format that we can share on stories as well, we create awareness around the latest fraud tactics while driving engagement for the brand.

Execution

The Scammy Awards is a recurring social UGC IP where people submit real scam messages, calls, emails, and WhatsApp chats they've received.
Additionally we can also collect stories from sources like reddit and other forums on the internet.
APB shortlists (monthly/ quarterly) the most outrageous, convincing, and bizarre scam attempts, while the community votes for the "winner".



Stay Street Smart

SCAMMY AWARDS | Urban | IG

Execution (cont.)

Red Flag Carousels

Shortlisted scam entries are decoded to highlight the warning signs and simple precautions people should know.

Scammy Reactions

Creators react to the funniest and most bizarre scam attempts, mocking scammers while rating their efforts.

Real vs Scam

Side-by-side comparisons of genuine and fraudulent messages, calls, and emails to help people spot the difference.

Inspired by Real Scams

Original content and skits based on actual scam submissions, making awareness more relatable and engaging.

Paisa Panchayat | Rural | YT, Moj, Sharechat

Insight

In rural India, the panchayat is where people come together to discuss and solve issues. Naturally, it becomes the perfect setting to trust the conversations that happen there more than formal financial communication.

Concept

Paisa Panchayat reimagines the familiar **culture of village discussions to simplify banking** and financial education.

Everyday money-related doubts become the topic of the Panchayat, where relatable characters discuss, debate, and arrive at the right solution. By presenting financial concepts through familiar conversations and local humour, the series makes banking knowledge **simple, trustworthy, and easy to remember.**

Fin Bhi Fun Bhi | HERO IDEA

Paisa Panchayat | Rural | YT, Moj, Sharechat

Execution

A recurring **micro-drama series** set in the Paisa Panchayat, where each episode revolves around a common financial situation - KYC confusion, delayed subsidies, failed UPI payments, daily wages, or scam calls.

Through relatable characters, humour, and everyday conversations, the Panchayat uncovers the right solution, with Airtel Payments Bank naturally emerging as the trusted guide. The series is created in vernacular languages and optimised for Shorts, Reels, and WhatsApp sharing.

Reference

PANCHAYAT SCRIPT

Setup: Panchayat meeting with around 10-15 villagers present apart from 5 panch and one sarpanch.

Sarpanch: Ganesh utsav ki pooja agle hafte hain. Iss QR code par harr ghar 100 rupaye ka chanda jama karega.

villagers start scanning and paying.

Villager 1: Paisa ja nahi raha hai

Villager 2: Humara wala bhi phail ho gaya

Sarpanch: Fir koshish karo

Villager 3: Ab bhi nahi hua

Villager 2: Eyy. Humara 200 chala gaya. Phail wala sahi ho gaya aur doboara wala bhi chala gaya.
Humaare 100 lauta dijiye na.

Villager 1: Humein bhi

Sarpanch: Aapka bhi 200 gaya?

Villager 1: Nahi..humaare khaate mein paisa nahi hai. aapse udaar le raha tha

Sarpanch:(facepalm) Humei dene ke liye hum se udaar le rahe ho? bahura gaye ho kya? Jao Airtel Payment Bank mein khata khulwao. Sahakari bank se behetar UPI. aur Sarkari scheme se paisa bhi ayega.

Fin Bhi Fun Bhi | HUB IDEA

UPI se ishq hai, toh risk hai | Urban | IG & YT - Films

Insight

Digital transactions have become so routine that people often don't realise how much access they're giving away until something goes wrong.

Concept

We expose our bank accounts to multiple people and platforms every day without even realising it. It's like handing the keys to your locker to strangers.

This series brings everyday digital risks into real-life situations through fun, dramatic analogies, making people aware of their unsafe habits and encouraging them to adopt safer banking practices before a scam happens.

Fin Bhi Fun Bhi | HUB IDEA

UPI se ishq hai, toh risk hai | Urban | IG & YT - Films

Execution

A series of thumb-stopper films that turn **risky digital banking habits** into **exaggerated real-world situations.** Each film opens with an absurd but relatable visual that mirrors how casually people expose their bank accounts online. Each scenario then reveals the digital behaviour it represents, helping people recognise unsafe habits and adopt safer banking practices, a Safe Second Account.

Sample Instances:

- Someone hands over their entire wallet to pay ₹10
- Gives a stranger the keys to their locker while asking for a refund
- Carries all their savings to buy a cup of tea.

SAMPLE SCRIPT

DIALOGUE	VISUALS
	A man walks into a roadside chai stall carrying a bag full of family jewellery.
Bhaiya, ek chai.	The chaiwala hands him a cup of chai.
₹10 na? Isme se le lo.	He casually places the bag of gold on the counter. The chaiwala and people around him stare in disbelief.
Voice of God: Bhai...chai khareed rahe ho ya chai ki dukaan? Aur aap sab, chauk kyun gaye? Roz aap bhi yahi karte ho.	Freeze frame first at the man, and then on the shocked reactions.
VO: Online payment karte waqt jab apna primary bank account har jagah use karte ho, woh yahi toh hai.	The shocked people look at the camera.
VO: Roz ki payments ke liye Airtel Payments Bank ka Safe Second Account use karo.	Cut to the man scanning a QR code with his phone through APB.
End Frame: Zaroorat jitna paisa. Baaki apni jagah.	APB Branding

Money Minute | Urban | IG

Insight

People increasingly prefer snackable content that delivers quick, practical value. Instead of sitting through long explanations, they engage more with short videos that solve an everyday problem or teach one useful habit in under a minute.

Concept

We encourage people to build better **financial habits** by giving them a **hot take in one minute friendly format**. A series that delivers one simple, actionable money habit in every episode, making safer banking a part of everyday life. From smart payment practices and **fraud prevention to saving tips** and digital banking basics, each episode helps people make better financial decisions, one minute at a time.

Fin Bhi Fun Bhi

Money Minute | Urban | IG

Execution

Each episode starts with one **smart money habit** on screen. A host breaks it down in **under a minute** with simple infographics, sharing one simple, actionable tip, its benefit, and how to apply it in everyday life, while a **one-minute timer** runs throughout the video. Every video follows the same format and ends with a quick financial safety reminder and Airtel Payments Bank branding, making the series instantly recognisable and easy to follow.

Let’s Unbank it | Urban | IG

Concept:

Banking jargon often sounds more complicated than it really is. When people hear unfamiliar terms, they tend to tune out, even though these concepts affect their everyday financial lives.

Idea:

L**et’s unbank it is a bite-sized content series that simplifies one financial term in under a minute.** Using relatable analogies, everyday situations, and **AI-powered visual storytelling**, each episode breaks down complex banking jargon into something simple, memorable, and practical. Instead of just defining a term, the series shows viewers how it impacts their everyday financial lives, making financial learning feel less like a lesson and more like a conversation.

Sample topics:

- What is KYC?
- What is a Credit Score?What is an Emergency Fund?
- What is Compound Interest?
- What is Financial Planning?

Reference

Sample Script: Let’s Unbank it

Dialogue	Visual
Credit score…naam toh suna hoga. Aaj matab bhi seekh lete hain.	An AI-generated host greets the audience. A "Credit Score" meter pops up with question marks.
Ise apne money ka report card samajh lo.	The one minute timer starts at the top right.
Credit Card Bill aur EMI time pe bharoge toh good grades, matlab high score. Agar baar baar late karoge toh score neeche.	An animated report card comes alive. A credit card happily pays a bill → score jumps up. A late payment makes the score drop.
Iska range 300-900 hota hai. 750+ is considered good. Topper range.	The report card with a 750+ credit score- awarded ‘Topper’ stamp.
Score jitna accha, loan milna utna aasan.	A loan icon unlocks when the score gets higher.
Bas remember- Bills ko time pe pay karo. Aur credit score regularly check karo.	
Aaj humne seekha credit score. Milte hain Money Minute ke next episode mein- ek new fin habit ke saath.	APB branding with Unbanking Terms/Money Minute logo unit.

Fin Bhi Fun Bhi

Aaj Ka Kaam | Rural | YT & Moj

Insight

People assume banking processes are difficult, even when they're simple.

Concept

Many banking tasks feel like a big responsibility, so people keep postponing them or depend on someone else to do them. In reality, most of these tasks take just a few minutes.

This series breaks them down into simple, step-by-step actions, making people realise they're much easier than they imagined. **The goal is to make viewers feel, "Arre, yeh toh baayein haath ka khel hai," and encourage them to complete the task immediately.**

Fin Bhi Fun Bhi

Aaj Ka Kaam | Rural | YT & Moj

Execution

A fast-paced explainer series that simplifies everyday banking through playful visual storytelling. Using paper cut-outs and expressive demonstrations, each episode breaks down one simple banking task into bite-sized, easy-to-follow steps, making everyday banking **baayein haath ka khel.**

Sample tasks:
- Checking subsidy status
- Viewing transaction history
- Labelling UPI transactions
- Updating KYC

AI - Video - HUMAN lead

Sample: Aaj ka Kaam

Dialogue	Visual
Aaj ka kaam: UPI transactions ko label karna. Mushkil lagta hai kyunki kabhi try hi nahi kiya!	AI-generated host appears on screen with his signature style. A playful title card reads "Aaj Ka Kaam".
Bahot easy hai.	The one minute timer starts at the top right.
Bas transaction history kholo…	Screen recording/UI animation opens the transaction history.
‘Search’ pe tap karo.	Finger taps 'Search' button. Drop down opens.
'Name’, ‘Amount’ ya ‘Date’ daalo.	User types ‘Tejas’ or ‘100’. The transaction opens up.
See! Kitna easy tha.	The host smiles and gives a thumbs up. The labelled transactions look neat and organised.
Aaj ka Kaam- Done ✅ Kal phir milte hain ek aur easy banking task ke saath.	APB branding with Aaj Ka Kaam logo unit.

Fin Bhi Fun Bhi

Subsidy Ki Seedhi | Rural | IG, YT, Moj

Insight

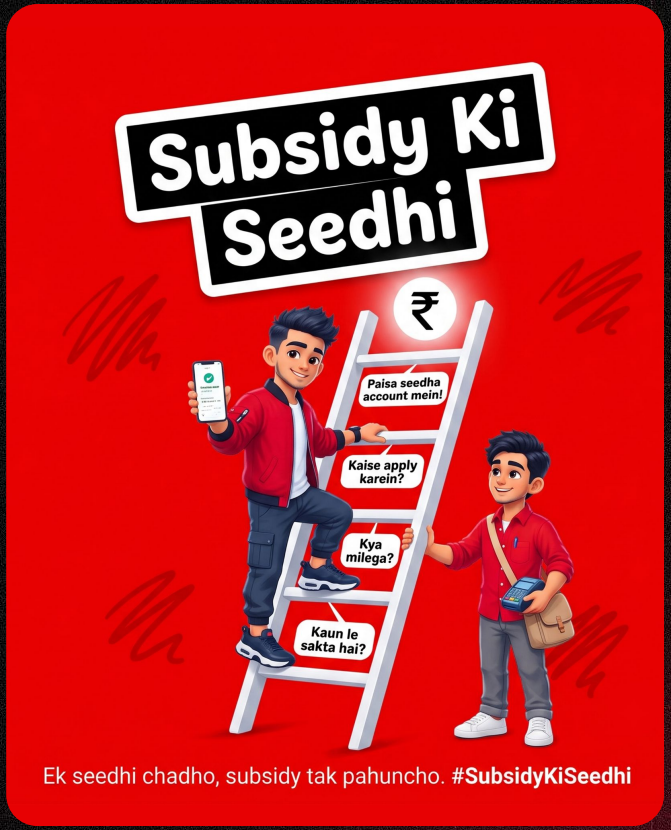
Several government subsidies remain undiscovered by the people they are meant for. **People need a simple path that helps them discover and access the benefits available to them.**

Concept

Subsidy Ki Seedhi becomes that path. Every episode helps people climb closer to the government subsidies they are eligible for. By breaking down eligibility, benefits, and the application process into simple, memorable content, the series makes subsidies easier to discover, understand, and access, bringing people one step closer to financial empowerment.

Execution

A recurring content series where **each episode uses the visual device of a ladder (Seedhi) to simplify one government subsidy**. As the host climbs the ladder, they explain who the subsidy is for, its key benefits, eligibility, and how to avail it in simple regional language. **The video ends by showing how an Airtel Payments Bank account makes receiving government subsidies simple, secure, and hassle-free.**



Fin Bhi Fun Bhi

Subsidy Ki Seedhi | Rural | IG, YT, Moj

Execution (cont.)

Announcement Format: Inspired by the traditional village Kotwal's "Suno, Suno, Suno..." announcement, each video opens with the familiar call to grab attention. The character then announces one government subsidy in simple local language, explaining who it's for, what the benefit is and how to receive it. The video ends by showing how an Airtel Payments Bank account makes receiving the subsidy simple and secure.

Note:

Using the familiar Kotwal announcement style makes government information feel culturally relevant, easy to understand, and hard to ignore.

COMMUNITY VOICES

COMMUNITY BUILDING

Instead of sounding like a bank, this bucket taps into the way rural communities naturally share useful information with one another. By using familiar, community-first formats, it makes financial guidance easier to understand, remember, and pass on through everyday conversations and WhatsApp sharing.

Community Voices

Sun Kar Samjho | Rural | Whatsapp Community + Audio Led Short Form

Insight

Many people in rural India prefer voice notes over written messages in English.

Concept

What if, instead of reading long financial explainers, you could simply listen and learn? **What if building better financial habits was as simple as listening to a 20-second text animated audio message?**

Enter Sun Kar Samjho: a series that simplifies important banking information through short, **audio-first content.**

Community Voices

Sun Kar Samjho | Rural | Whatsapp Community + Audio Led Short Form

Execution

A series of 20-30 second, dynamic text-first audio explainers, with each episode answering one common banking or subsidy-related query. Every video opens with the question on screen and through a clear voiceover, followed by one simple explanation and one actionable takeaway.

Designed with minimal APB icon and visuals and produced in regional language, the content is lightweight, **easy to consume on low-data networks and simple enough to be forwarded across WhatsApp, Facebook and other community groups.**

Community Voices

Seekho. Sikhao. | Rural | Youtube, Moj, Whatsapp Community, Facebook Groups

Insight

Rural digital adoption often travels through trusted people—family members, neighbours, banking correspondents and local shopkeepers.

Concept

Financial awareness spreads faster when it comes from familiar faces and trusted voices. This series creates simple, shareable content tailored for rural audiences, explaining everyday banking concepts, digital payments, government schemes, and fraud prevention in regional languages.

Designed for platforms like WhatsApp, Moj and Facebook, **every piece of content is easy to understand, easy to share, and easy to pass on, helping financial knowledge travel from one person to another.**

Community Voices

Seekho. Sikhao. | Rural | Youtube, Moj, Whatsapp Community, Facebook Groups

Execution

Every episode begins with the school bell ringing as Masterji steps into the classroom to solve one simple financial query relevant to rural audiences. Using a blackboard and easy-to-follow explanations, he covers topics like checking whether a DBT is linked, checking an account balance, finding subsidy information on government portals.

Each episode ends with Masterji encouraging viewers to share the lesson with their family and fellow villagers. The series is created in audio, static, and short-video formats, and distributed across highly shareable platforms like WhatsApp and Facebook, allowing financial knowledge to spread through trusted community networks.

STRATEGIC

PARTNERSHIPS

Strategic Partnership

Panchayat S5

With its strong connect among rural audiences, Panchayat is the perfect cultural fit to simplify digital banking and government benefit awareness.

The show's **trusted characters** can naturally explain the importance of Direct Benefit Transfer (DBT), government subsidies, and opening an Airtel Payments Bank account.

By integrating financial education into **familiar conversations,** the partnership makes banking advice feel relatable, trustworthy, and community-driven.

Creative Reference

Chandigarh University turned Vikas and Bhushan's epic rivalry into its smartest creative move

Strategic Partnership

Dupahiya S2

Dupahiya is set in Dhadakpur, famously marketed as Bihar's **crime-free village**. This creates a clever opportunity to highlight that while physical crime may be absent, digital fraud can happen anywhere.

Through the show's humour and characters, Airtel Payments Bank can **educate audiences** about online scams, safe banking habits, and the importance of a Safe Second Account without disrupting the world of the show.

Creative Reference

Strategic Partnership

Farzi S2

Farzi already revolves around the idea of fake currency, making it a natural extension to talk about today's **"Farzi" threats,** fake payment links, fake businesses, fake job offers, fake investment schemes, and other digital scams.

The partnership allows Airtel Payments Bank to evolve the conversation from counterfeit cash to counterfeit digital experiences, reinforcing safe banking habits and positioning the bank as a **trusted ally against financial fraud.**

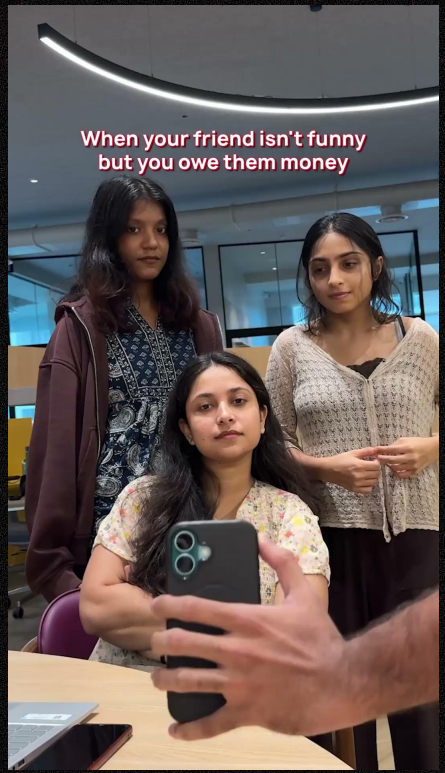
SLICE OF LIFE

BAU CONTENT

Everyday adulting moments that hit differently when it's your own money.



Money moments using the "pretending everything is great" meme.

The classic salary day vs. month-end moment into relatable, humorous content.

Slice of Life

Spender me VS Saver me | Urban | Instagram Carousel

Insight

Most people already think of their money in two buckets: **money they can freely spend and money they don't want to touch.**

Concept

By turning these two sides of our brains i.e. "Spender Me" and "Saver Me" into relatable personalities, APB makes everyday money decisions entertaining while reinforcing the need for a safe second account.

Execution

A recurring carousel where **Spender Me and Saver Me** react to everyday money moments through short, witty conversations. Each carousel opens with a relatable spending situation, followed by a back-and-forth between the two personalities. **The final slide lands on the idea of using Airtel Payments Bank as a separate account for everyday spends, keeping savings protected.**

Slice of Life

Spender me VS Saver me | Urban | Instagram

Carousel

Sample Instances/Copy:

Slide 1: You keep browsing that random sneaker website!

Spender Me: The shoes there had 40% off.

Saver Me: But they’re still 12k?!!

Slide 2: Your salary is credited.

Spender Me: Time to empty my wishlist!

Saver Me: Sure. But from your Safe Second Account. Leave your salary where it belongs.

Slide 3: Another OTT subscription auto-renewed.

Spender Me: It’s only 199 a month.

Saver Me: Unfortunately, you have 7 of those .

TOPICALS

Instead of chasing every trending moment, we focus on topicals that have a meaningful connection to the brand. Alongside these, we create fresh, ownable moments that don't rely on overcrowded holidays.

Topical

Halloween | Urban + Short film series

Sample 1: Fake Job Scam

Visual Flow
A dimly lit room. Thunder. A creepy HR recruiter with a distorted voice appears on a video call.

Scammer: "Congratulations... You've got the job. Just click this link and you'll earn ₹1,00,000."
The victim doesn't flinch.

Victim: "Great. While you're at it, can you also send me the CEO's salary?"

The horror music cuts. The entire music and the thematic changes.

The scary HR instantly transforms into a clown with a tiny party horn.

End Slate:

Scammers only look scary until you stop believing them.

Airtel Payments Bank

Stay alert. Bank smart.

Topical

Halloween | Urban + Short film series

Sample 2: Fake Bank KYC Scam

Visual Flow:
A shadowy "bank executive" emerges from the darkness.

Scammer:
"Your bank account will be blocked in 10 minutes. Tell me your OTP... now."

The victim calmly replies,
“Perfect. Block this number first."The scammer freezes.
His creepy suit pops into a colorful clown costume as circus music replaces the horror score.

End Slate:
Don't fear scammers. Ignore them. Report them.
Airtel Payments Bank

Stay alert. Bank smart.

International Coffee Day | Urban + Short film

1st October

Insight:

For many of us, grabbing a coffee is second nature. It's a small ritual that fits so naturally into our day that we rarely think twice before scanning to pay.

Idea

For many of us, a coffee isn't an expense, it's a little ritual we look forward to every day. This video starts by celebrating that habit, breaking down just how much our daily coffee adds up to over a year. Just when viewers expect the conversation to be about spending, the story takes a turn: **the real cost isn't the coffee itself, but using your primary savings account for everyday payments.** It ends by introducing Airtel Payments Bank's Safe Second Account as a simple way to enjoy your daily rituals while keeping your savings protected.

Reference

Topical

International Coffee Day

Urban + Instagram Reel

Sample flow:

The TRUE Cost of Being a Coffee Lover
India's coffee obsession is brewing.
India consumes **90,000+ tonnes of coffee every year.**
Urban India contributes **70% of coffee consumption.**
The café culture is now **a ₹14,200 crore+ market.**

But how much does your daily coffee really cost?
₹150/day = ₹4,500/month = ₹54,750/year
₹250/day = ₹7,500/month = ₹91,250/year

Sounds expensive? Think again.
Because your coffee isn't the biggest risk to your money.
One phishing link. One fake QR code. One scam call.
Can cost you more than a year of coffee.

So keep your coffee habit. Just keep your savings safer.
Use your **Safe Second Account** for everyday spends. Because we love your coffee runs...
...but we love your savings even more.
